**AMENDED ORDER GRANTING AUTHORITY TO PROVIDE
RESELL INTEREXCHANGE LONG DISTANCE SERVICES IN TENNESSEE**

This matter came before Chairman Deborah Taylor Tate, Director Sara Kyle and Director Ron Jones of the Tennessee Regulatory Authority (the "Authority" or "TRA"), the voting panel assigned in this docket, at the regularly scheduled Authority Conference held on July 7, 2003, for consideration of the Application to Provide Operator Services and/or Resell Telecommunication Services in Tennessee (the "Application") filed by ACC National Long Distance Corporation ("ACC" or the "Applicant").

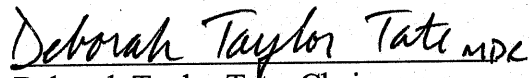

On April 24, 2003, ACC filed its Application requesting permission to provide resell interexchange long distance services in Tennessee. During the Authority Conference held on July 7, 2003, the voting panel found that the Applicant had met all the requirements for certification and the requirements of Tenn. Comp. R. & Regs. 1220-4-2-.57, which was promulgated pursuant to, *inter alia*, Tenn. Code Ann. § 65-2-102 and Tenn. Code Ann. § 65-4-201, and should be authorized to resell interexchange long distance services in Tennessee.

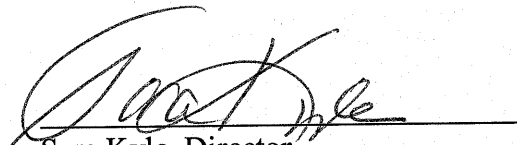

On August 6, 2003, the Authority issued an *Order Granting Authority to Provide Operator Services and/or Resell Telecommunications Service in Tennessee*, which authorized

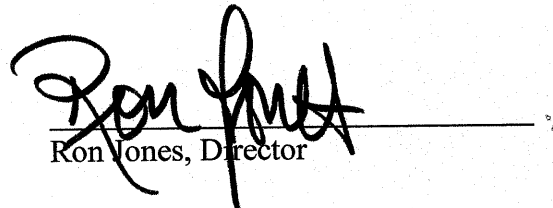

ACC as a provider of operator services rather than as a reseller of interexchange long distance services as requested in the Application. In order to correct this inadvertent error, this Order amends the Order of August 6, 2003 to reflect a grant of authority to resell interexchange long distance service in Tennessee.

IT IS THEREFORE ORDERED THAT:

1. ACC National Long Distance Corporation is issued a Certificate of Convenience and Necessity as a reseller of interexchange long distance services in Tennessee as specified in its Application on file with the Authority rather than as a provider of operator services.
2. This Amended Order shall remain in effect until further order of this Authority.
3. This Amended Order shall be retained as proof of certification with this Authority, and may be used to obtain the appropriately tariffed access line from duly authorized telecommunication service providers.
